Boston Leadership Institute Parent and Teacher Choice Award Winner

Boston Leadership Institute – Winner Parent and Teacher Choice Awards

STEM Summer Camps

[Click here to visit site](#)

is an award-winning STEM (science, technology, engineering and math) summer program for high-achieving teens. While our Parent and Teacher Choice Team has seen some excellent STEM programs, BLI is our top-choice recommendation!

Since 2011, has provided unique, engaging, and valuable opportunities to thousands of students from around the United States and the world.

Led by highly qualified and decorated teachers and professors from the Boston area and universities such as Yale, Brown, Georgetown and others, the ever-expanding BLI lineup covers Medicine, Engineering, Business, and Science.

offers one-week and three-week STEM camp options, both of which provide students with hands-on lab experience that is rarely accessible to them in school.

The subject matter is challenging and exciting, and students gain important credentials to include on college applications.

A comprehensive list of awards and accolades is the best we've seen for STEM programs.

is Unanimously Chosen by the Parent and Teacher Choice Award Team from HowtoLearn.com

You worked very hard to make your product one that makes a difference in children's lives. Would you like to share it with over 2 million parents, teachers, and homeschoolers?
