Exploring the Different Types of Summer Camps

APRIL 18, 2022

You want to give your kid the best summer camp experience – we get it! But more importantly, we've been there. Ensuring your child has a great time at summer camp means every kind of camp will suit your child. Luckily, there are several different types of summer camps to choose from.

If your child loves art, you can send them to an art-dedicated summer camp. The same goes for sports, technology, musical theatre, and more. So, instead of a general summer camp, a specialized camp will be perfect for your child.

The Different Types of Summer Camps

Sports

Good news for the future athletes of the family...there are hundreds of sports summer camps around the globe! Almost all summer camps do offer a wide array of activities, but if your child is particularly interested in a specific sport, consider sending them to a sports-specific summer camp.

STEM (Science, Technology, Engineering, and Math)

If sports aren't in your child's interests, maybe something in the realm of math, science, technology, or engineering is more appropriate. And if that's the case, more devoted to education.
